

# COVID-19 Support for Nottingham City and Nottinghamshire residents

If the current crisis is having an impact on your household, your Local Authority urges you to reach out, as support is available from the Warm Homes Hub.

From increasing your income, improving your heating or simply making your home more energy efficient, our services can help to put more money back into your pocket. See the reverse for a full list of our services, both free and subsidised.

## Our services:

### Financial support

We can help to increase your income with benefit checks, energy bill discounts, lower energy tariffs as well as hardship funds and one-off crisis grants.

### Priority services

We can register you on to the Priority Services Register to ensure that in the event of a powercut you are reconnected quickly.

### Heating repair/replacement

If your heating is broken or faulty, we can help you with urgent replacements or repairs while following the Government's advice on social distancing.

### Local collections

If you are not able to leave your home and need support to collect food or prescriptions, we can help. Food bank vouchers are available too.

### Comfort at home

As you are spending more time at home, we can offer you practical energy advice to improve the warmth and comfort of your home.

### Referrals & more

We can refer you to other health & wellbeing services if you need more support. We can also simply provide a friendly voice in this time of social isolation.
